

## Your registration experiences

\* survey conducted at Nov. 2007 GTAAN meeting, compiled by Nancy Gimbel, Chair of the GTAAN Assessment Committee

School	Question 1	Question 2	Question 3	Question 4	Question 5	Question 6	Question 7
	Did you use OSCAR to manage <u>permit</u> request this phase of registration	Did you use OSCAR to manage <u>overload</u> requests this phase of registration	Do you allow students to change into your major during registration	Would it help you in advising if the "General Catalog" returned to hard copy	Does your major have concerns about students "saving seats" in classes for other students (by registering for classes they don't need as a way to save a seat for a friend)?	Do you keep your classes closed to majors-only for part of registration	What were the two most frequent questions you received during registration
AE	Yes	Yes	Yes	Yes	Yes	Yes	this class has a major restriction but I need it to graduate, why? How long will my permit be valid?
BC	No	No	No	No	Yes	Yes	
BIO	Yes	Yes	Yes	Yes	Yes	Yes	Classes I need to take are full, what should I do? 2. What does this error stands for (e.g. major restriction, prerequisites)
BME	No	No	Yes	Yes	Yes	Yes	When will sections of certain non-BME classes open, they are all full? Why doesn't BME have more technical elective classes?
CM	No	No	Yes	Yes	No	Yes	When will my time ticket open? Why do Freshmen get to register last?
CS	Yes	Yes	No	Yes	Yes	Yes	problems with getting seats in the lab associated with a class. What will be offered in the fall so students can plan their full upcoming year.
EAS	Don't know	No	Yes	Yes	Yes	Yes	
ECE	No	No	Yes	Yes	No	No	overloads in math and physics and how do I get "U" holds removed

Econ	Yes	Yes	Yes	Yes	No	No	Why is it so hard to get into the international plan? Is study abroad available in Econ?
GT-Savannah	No	No	Yes	Yes	No	No	regarding prereqs...Oscar lists coreqs as prereqs, which causes a great deal of confusion. There is no central location for course descriptions online that is accurate...for example, until recently, ECE course descriptions were listed in 3 sep places...each with conflicting info about prereqs. I learned - after a year - that I had been misadvising students regarding prereqs in the program.
Honors	Yes	Yes	Yes	Yes	Yes	Yes	When will I get my permit? How can I get into a closed class?
ID	No	No	No	Yes	No	Yes	Fully two-thirds of our permit and overload requests come from our own students and given the small size of our program (under 200 students) I am as likely to see a student come into my office and ask me in person for a permit as to email me.
INTA	Yes	Yes	Yes	Yes	Yes	Yes	how do I get permits/overloads or other wise get into classes for other depts. Major restrictions, language class restrictions.
ISYE	No	No	No	Yes	Yes	Yes	restrictions aren't clear, overload policies, lack of electives

MATH	Yes	Yes	Yes	No	Yes	No	How do I get into a closed class? I have already submitted an online overload request, when will it be processed?
ME/NRE	Yes	No	Yes	Yes	Yes	Yes	1. I want to register for xx professor's section. Can I have an overload? 2. Why are so many of the social science and humanities electives major restricted? 3. Students have trouble with the link errors for chemistry and physics, etc. This is more of a freshman issue.
ME	Yes	Yes	Yes	Yes	Yes	Yes	Why can I not get into Math classes and English classes. What does link mean when I try to register for Physics.
MGT	No	No	Yes	Yes	Yes	Yes	permits & overloads
PSYCH	Yes	Yes	Yes	Yes	No	Yes	why can't I get into this class? Can I please take the class without the pre-
STAC	Yes	Yes	Yes	Yes	Yes	Yes	Why can't I register for a freshman class when I've never taken the course? Can I switch into another section that fits my schedule better without getting a permit/overload? Requests to transfer into STAC from another major, requests from non-STAC majors to take the STAC senior seminar.
